Highly motivated Full Stack Developer specializing in both frontend and backend development, leveraging Agile methodologies to streamline project execution, foster team collaboration, and deliver robust, scalable software solutions.

PROFILE SUMMARY

- Possess 3+ year of experience in software engineering with a focus on front-end development, delivering high-quality solutions aligned with user needs and industry standards.
- Worked as a Software Engineer at Nexvia Software Technologies, Bangalore. Contributing to front-end development and actively participating in Agile ceremonies to enhance team collaboration.
- Developed and launched multiple responsive web applications, improving user engagement and receiving positive feedback from stakeholders.
- Skilled in modern web technologies and frameworks such as MongoDB, Express.js, React.js, and Node.js. Strong expertise in building RESTful APIs, implementing JWT-based authentication, with a foundational understanding of backend integration.
- Fostered effective communication within the team and supported continuous improvement by embracing Agile practices and constructive feedback.
- Committed to enhancing user experience by creating functional, intuitive, and accessible applications that meet diverse user requirements.

KNOWLEDGE PURVIEW

- | | | |
|--|------------------------------|-------------------------------|
| • Software Development Lifecycle | • Back-end Development | • Front-end Development |
| • Agile Methodologies | • Agile Methodologies | • User Experience Enhancement |
| • Troubleshooting & Debugging | • Microservices Architecture | • Version Control (Git) |
| • Application Performance Optimization | • API Development | • Responsive Web Design |

TECHNICAL SKILLS

- **Frontend Development:** React.js, React Native, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux.
- **Backend Development:** Node.js, Express.js, Python, RESTful APIs, JWT Authentication, MVC Architecture, API Validation
- **Database Management:** PostgreSQL, MongoDB, Database Design, Query Optimization, Mongoose, Sequelize
- **Agile Methodologies:** Jira, Scrum, Retrospectives
- **DevOps & Deployment:** Docker (basic), CI/CD (basic), AWS (basic), PM2, Nginx
- **Tools & Methodologies:** Git, Jira, Agile, Scrum, Postman, Swagger, Debugging, Performance Optimization.

SOFT SKILLS

- Adaptable
- Analytical
- Team Player
- Communicator
- Problem-solver

WORK EXPERIENCE

- | | | |
|---|--|------------------------|
| Software Engineer | Nexvia Software Technologies, Bangalore | Oct'22 – Dec'25 |
| <ul style="list-style-type: none">• Steered frontend development using Angular and React, delivering responsive, user-centric web applications that met client specifications and improved user engagement.• Developed complex application modules with React, implementing advanced features such as form handling, routing, and service-based architecture to enhance functionality and maintainability.• Partnered with backend teams to integrate APIs seamlessly, ensuring a cohesive user experience and efficient data flow across applications.• Executed code optimization and testing initiatives, significantly enhancing software performance, scalability, and reliability while reducing post-deployment issues. | | |

INTERNSHIP

- | | | |
|--|--|------------------------|
| Full-Stack Web Development Intern | Camsoft Technologies, Bangalore | Oct'21 – Nov'21 |
| <ul style="list-style-type: none">• Contributed to the development of a Custom Resume Generator Web Application, which improved client data management through efficient collection, storage, and filtering features.• Designed and implemented responsive UI components and integrated backend databases, ensuring seamless functionality and cross-device compatibility.• Assisted in debugging and testing key application features, helping maintain code quality and meet project standards ahead of schedule.• Participated in code reviews and team discussions, enhancing collaboration and gaining exposure to industry best practices in full stack development.• Proactively learned new tools and frameworks, accelerating onboarding and delivering high-quality features within the internship duration. | | |

EDUCATION

2018 - 2022 **B.E. in Computer Science Engineering**, T. John Institute of Technology, Bangalore, **CGPA: 6**

PERSONAL DETAILS

Date of Birth : 24th November 2000
Languages Known : English, Hindi
Address : Delhi, 110034
